No amount of questioning could get any further reply from him.

The elevator man at 31 Broadway, where Vice-Consul Eberhard has his office, told an EVENING WORLD reporter that during the first three days of the week an Austrian official had called on the Vice-Consul every day and always remained about an hour. On Wednesday the official asked to be directed to Police headquarters. He has not been seen by the elevator man since.

#### CLOSELY GUARDING FRICK.

**The Story of the Plot Believed in Pittsburg.**

**ESPECIAL TO THE EVENING WORLD.**

PITTSBURG, PA., Aug. 11.—The Post publishes this morning the story of the newly-discovered Anarchistic plot to assassinate Chairman Frick, of the Carnegie Steel Company Limited.

The Post says the plot was hatched in Vienna and was given to the New York police by Vice-Consul Eberhard, of Austria. The Post says the New York police at once notified the Pittsburg authorities and a close watch for Aaronستان is being kept about all the Anarchist's resorts.

As a result of the disclosures additional guards have been placed about the Carnegie buildings and Mr. Frick's residence, and detectives accompany him wherever he goes.

Mr. Frick regards these precautions as unnecessary, but his friends insist upon this protection.

The Post says the matter has been kept secret by the police authorities of New York and Pittsburg in the hope that they might succeed in capturing Aaronستان.

In this connection it can be said that Secretary Lovett has been warned that he has only until the 15th inst. to live. Other officials of the Carnegie company have also received threatening letters. The police are satisfied, however, that they can trust the plans of the Anarchists.

#### IT MAY HURT THE CARNEGIES.

**Probable Result of the Agreement on the Iron Scale.**

**ESPECIAL TO THE ASSOCIATED PRESS.**

PITTSBURG, Aug. 12.—In commenting upon the amicable agreement between the Amalgamated Association and the iron manufacturers a member of the Association said to-day:

"It will prove advantageous to our cause in more ways than one. It will be the means of starting all the iron and steel mills throughout the country and giving work to thousands of idle workmen. As a result, the surplus of labor now in the market will be used up. Orders that would otherwise have gone to Carnegie will naturally go to other firms, as they can do the work and the Carnegie company, under existing conditions, cannot."

#### NEARLY ALL DESERTED.

**Only Fifteen of This Party of Non-Unionists Reached Homestead.**

**ESPECIAL TO THE ASSOCIATED PRESS.**

PITTSBURG, Aug. 12.—M. L. Kellogg, a Kansas City reporter, gives the following account of his experience with a party of non-union workmen, numbering thirty-five, engaged by N. W. Nye, the employment agent of Cincinnati:

"We all hired to come to Homestead as smelters," said he, "but not one man in the lot knew anything about the work. Any story went, and we were all locked up in a single car and came over the Baltimore and Ohio line."

"Crowded the cars at nearly every stopping place. About twenty of us made up our minds we had had enough excitement, and got off at the next station, and the car left and left the train a short distance in the state of Washington, Pa. We did this in single order at the various stations in order to form no suspicion. The agent got to Pittsburg with only fifteen laboring men out of the crowd."

#### GALA NIGHT AT BRIGHTON.

**The Sherman Park Association was a Great Success.**

Brighton Beach put on its most festive garb last night. Never, in all its history perhaps, had there been so great a crowd there before.

It seemed as if all New York and Brooklyn had turned out to witness the brilliant and gay celebration, which began in the afternoon at the public beach and continued until the early hours of the night.

The matter of an aquaplane and the matters of the day were entirely different, and it was not complimentary to the Sherman Park Association to have its name mentioned in such connection.

There was Elmerine, the singer, who performed some of the most astounding feats on a high, slant wire, and Fancy Meade, who thought their queen had come in the flesh to the south to enchant them, and Lucerne Conch, the swimmer, who had won the national title in the public beach.

And, test all there were, there was Frankie and the band, which the proprietors of Brighton Beach had engaged for the entertainment of the people with the same success as the aquaplane.

That evening the aquaplane was dismissed with a hand-clap, and the band was dismissed with a hand-clap.

**Killed Instantly by a Fall.**

Albert Herd, an engineer, employed at 78 Mercer street, this morning, fell through the hatchway into the subcellar and was instantly killed. He was twenty-three years old and lived at Conies, N. Y.

FALL RIVER, MASS., Aug. 12.—Lizzie C. Borden was arraigned in the Second District Court before Judge J. Blodell this morning, charged with the murder of her father and stepmother. The courtroom was crowded to suffocation by a motley crowd of curious people in no way directly interested, and Miss Borden's friends at court were very few in number.

The Post says the plot was hatched in Vienna and was given to the New York police by Vice-Consul Eberhard, of Austria. The Post says the New York police at once notified the Pittsburg authorities and a close watch for Aaronستان is being kept about all the Anarchist's resorts.

Miss Borden was brought into the Second District Court room about 3 o'clock yesterday afternoon, presumably to give further evidence at the inquest. She was accompanied by her sister and Mrs. Brigham. All the proceedings were carried on behind locked doors.
